Education

- **Bachelor's degree of Electrical Computer Engineering**, Ain Shams University, Faculty of Engineering, Cairo
- **GPA:** 2.65

Skills

- **Backend Programing languages:** php , C#, and Python.
- **Frame work :**Vue.js / React / laravel / django / .Net
- **Data base :** SQL
- **Soft Skills:** Excellent communications and presentation skills, management principles, marketing principles. Ability to lead and work in teams. flexibility/adaptability, ability to work independently, decision-maker.
- Data structure and Algorithm and Design pattern

Projects

- Graduation E-commerce web site project powered by Artifial intelligence features like recommendation system , sentiment analysis and chat bot using Angular front end framework and .Net backend frame work and flask
- Deploying Flask Api service on Microsoft azure
- using Java script vanilla to build website for making notes (CRUD OP using JS , HTML , CSS , BOOTSTRAP)
- Designed Classification program game (Cat or Dog) using Deep Learning concepts
- Designed matrices calculator program using C++ programing language
- Constructed XML file operations (to check errors) using C++ programing language .

Courses

- **FULL STACK DEVELOPER PHP Stack CERTIFICATE BY (AMIT in NasrCity)**
- **FWD (Foundational course of Web development track)**
- **Artificial Intelligence (AI)**, (National Telecommunication Institute and Itida)
- **Neural Networks and Deep Learning**, DeeplearninAI (Coursera by Andrew Nj)
- **Structuring Machine Learning Projects**, DeeplearninAI (Coursera by Andrew Nj)
- **Improving Deep Neural Networks: HyperparameterTuning, Regularization and Optimization**, DeeplearninAI (Coursera by Andrew Nj)
